COMMERCIAL CONTRACT SEATING

Since 1989, Intermetal has been designing and manufacturing stacking chairs that combine unmatched style, comfort and durability.

Whether you are working on a new space, or breathing life into an existing one, we offer a wide selection of banquet, conference and meeting room seating options that will impress owners, operators and guests.

Our large selection of chairs are available in contemporary and updated classics that have been designed to support the evolving needs of the user. Manufactured for extreme contract use, Intermetal chairs can be specified with pride and confidence.

What sets us apart is that we manufacture what we sell. Our high tech furniture factory encompasses over 25,000 m² and is equipped with the latest equipment, machinery and technology to execute projects with precision, on time. We select only the finest quality materials and each chair undergoes stringent inspection prior to delivery. An in-house design team is on hand to assist customers with designs, layouts and drawings to meet exact requirements, budgets and specifications.

At Intermetal, we continue to invest in our people and remain committed to innovative designs, quality, value engineering, sustainability and customer satisfaction.

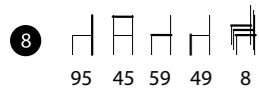

Intermetal is an ISO 9001:2015 and FSC Certified Company.
