

INTERIOR DOORS

High Performance
Quality Interior Doors
Direct from Manufacturer

Flat Doors

Simple but stylish, the flat panel interior door is void of any expensive details often associated with more complex designs. Its hard lines and minimalist form make it a great fit for any interior space. Available in a wide range of core options, colours and finishes.

Doors with Mouldings

Intermetal is renowned in the manufacture of moulded doors that are made from the finest quality eco-friendly raw materials and cores. Customers can choose from a large selection of stylish doors that have an even finish, are water resistant, low in maintenance and that will simulate a wooden door at a fraction of the cost. Our range includes doors with aluminium mouldings, wood mouldings and MDF mouldings with PVC lamination. We also offer a range of moulded doors with glass panels.

Grooved Doors

Using advanced technology, we offer a wide range of grooved doors manufactured from quality and eco-friendly raw materials that are laminated with a scratch resistant film that will guarantee long lasting performance. An economical choice that will resist deformation, is low in maintenance and the perfect alternative to heavy wooden doors.

Solid Wood Doors

We manufacture a wide range of solid wood interior doors that are designed, carved and polished directly in our factory under stringent quality measures by a team of skilled craftsmen. The doors are available in various sizes, designs and shapes and custom orders are accepted. An exclusive choice for commercial or residential properties, the solid wood doors are tested for their strength and durability to ensure compliance with international quality standards.

Veneer Skin Doors

The collection is designed with precision and are highly durable in humid climate conditions. Manufactured using MDF skins that are pressed with natural engineered veneer, commonly known as a reconstituted veneer, results in doors that are aesthetically appealing and suitable for any interior space. To cater to our individual client requirements, the doors are available in various designs, sizes and colours.
